

WEIJIAN ZHANG

weijianzhang90@gmail.com | github.com/WeijianZhang-UIUC

EDUCATION

University of Illinois Urbana-Champaign

Expected Jun. 2028

- Bachelor of Science in Mechanical Engineering, ZJU-UIUC dual-degree program.

Zhejiang University

Sep. 2024 – Jun. 2028

- Bachelor of Engineering in Mechanical Engineering, expected June 2028.
- Selected coursework: University Physics: Electricity and Magnetism (A+); Computer-Aided Design (A); Design for Manufacturability (A-); University Physics: Quantum Physics (A-).

RESEARCH & PROJECT EXPERIENCE

Audio-Visual 3D Digital Human Synthesis and Emotional Expression

Aug. 2026 – Present

ZJU-UIUC Institute | Mentor: Professor Xinbo Yu

- Conduct research on audio-driven 3D digital human synthesis, focusing on realistic emotional expression modeling.
- Implement core algorithm scripts and codebase, contributing to technical development and implementation tasks.
- Use deep learning frameworks and programming tools for audio-visual data processing and model training.

Automatic Ball-Drilling Machine | Programming

Aug. 2025

Zhejiang University | Mentor: Rong Xiang

- Responsible for writing all code governing the operation of the machine.

COURSE PROJECT

Bluetooth-Controlled Car | ME 270

- Collaborated with teammates to build a Bluetooth-controlled car as part of the ME 270 course assignment.
- Worked through a division of responsibilities to complete the project, which received recognition from the professor.

SKILLS & ADDITIONAL INFORMATION

Research: Audio-visual data processing; model training; audio-driven 3D digital human synthesis.

Programming: Core algorithm scripts and codebase implementation; deep learning frameworks and programming tools; machine-operation code development.
